City Creates Summer Camps, Classes and Exhibits Guide

Lloydminster, AB/SK – The City of Lloydminster has created a Summer Camps, Classes and Exhibits guide for both adults and youth seeking educational and recreational activities through the summer months.

Outlining more than 40 activities and programs, the guide helps ensure area residents have full access to the abundance of opportunities provided by City of Lloydminster facilities.

The guide includes facility contact information, hours of operation, pricing details and summaries for each activity. Residents will also find helpful tips on what clothing and supplies to bring along for specific activities.

Registration for summer programs opens online on Tuesday, May 24, 2016.

Copies of the guide may be picked up at any City of Lloydminster facility, or accessed online at www.lloydminster.ca.
