## ***Dimensions* exhibition opens on Jan. 14**

Lloydminster AB/SK

The *Dimensions* exhibition will open at the Lloydminster Cultural & Science Centre (LCSC) on Tuesday, Jan. 14. Organized by the Saskatchewan Craft Council, *Dimensions* is a touring, juried exhibition of 35 works by 33 talented Saskatchewan craft artists.

"We encourage our community to explore the unique works of art on display in the 30th *Dimensions* exhibition," said Shawna Dwyer, LCSC Manager. "From mixed media tapestry to porcelain clay, ceramic sculpture, found metal sculpture and more, *Dimensions* showcases the colourful talent of Saskatchewan artists."

The dynamic exhibition includes 35 works by artists from a wide variety of craft media. Artists had the opportunity to submit up to two handcrafted items for jurying by two respected master artisans. More than 120 craftspeople submitted over 200 entries for consideration.

The exhibition was selected by Michael Hosaluk, a Saidye Bronfman Award-winning wood worker, designer, and educator from Saskatoon. Hosaluk has much previous experience with *Dimensions* as a participating artist, awards winner, and juror. The out-of-province juror was Susan Rankin, a glass artist from Apsley, Ont. Susan grew up in Saskatchewan and maintains family and artistic ties here. Her work is exhibited internationally and nationally.
