The Lifesaving Society’s 3 level Canadian Swim Patrol program is for swimmers who are ready to go beyond learn-to-swim. The programs focus on developing strength and proficiency while introducing swimmers to the challenging world of lifesaving. Swimmers will have fun enhancing their capability in the water, increasing their physical conditioning, and learning lifesaving judgment. Each level will continue to develop swimmers’ strokes and provide a skill foundation that will prepare them for success in the Society’s Bronze Medal Awards. Each level of the Canadian Swim Patrol program has three modules: Water Proficiency, First Aid, and Recognition and Rescue.

Skating

Lil' Skaters Program Ages 3-6

Instructor: Hilary Sehn

Skating is a life skill enjoyed year-round at the Servus Sports Centre. Skill circuits, teaching aids, and games are used to ensure a fun learning environment. All skaters must wear a CSA approved hockey helmet while on the ice for safety and a pair of comfortable skates. Bike helmets do not provide sufficient head protection from a fall on the ice and are not permitted. Knee and elbow pads are also recommended for children learning to skate.

For the Parent & Child class, one parent or adult guardian is required to be on the ice with their child to provide support. Ice grips for your footwear are available for use if you are not comfortable wearing skates during this class.

Location: Rusway Arena at the Servus Sports Centre

No classes: Oct 12, Nov 9-11

PARENT AND CHILD

This class is recommended for children with little or no skating experience and who require assistance to stand on the ice. The focus of this class will be teaching balance, posture, and learning to stand up on the ice. Parents wearing skates must be comfortable enough on skates to physically support their child who may not yet be sturdy or balanced on the ice. Parents who are not stable on skates must have ice grippers on their shoes or boots for safety. There is a limited supply of ice grippers available to borrow during this class. ONE parent or caregiver per child is required on the ice per class. Adults are required to wear proper footwear for safety on the ice.

LIL' SKATERS STEP 1

To participate in this class, children are required to stand and walk on the ice with little or no assistance from the instructor. It is also an independent class where skaters are to follow instructions on the ice in a group setting. If the skaters are neither holding their balance on the ice nor following instruction, then the "Parent and Child" class is highly recommended. The fundamental movements of skating are introduced in this class, including skating forward, walking backward and turning, stopping, and jumping. Various activities such as action songs, teaching aids, and games are used to ensure a fun learning environment.

LIL' SKATERS STEP 2

This class is an excellent choice for those who have already taken Lil' Skaters Step 1 or for those with previous skating experience. Further development of fundamental movements of skating is taught during this class: skate forward, skate backward, turns, stops, and jumps. Balance and edge development are also introduced. Skill circuits, teaching aids, and games are used to ensure a fun learning environment.

LIL' SKATERS STEP 3

This is a fast-paced class and is designed for those who have already taken Lil' Skaters Step 2. This class can also be taken by those who have previously taken other skating lessons and have learned the fundamental movements of skating. Skaters will be taught forward crossovers, backward stride, side stops, tight glides, and edge development. Skill circuits, teaching aids, and games are used to ensure a fun and learning environment.
